## Participants are saying...

"A wonderful balance of time to understand the concepts and experiential learning with the horses who gave us immediate feedback. I felt the facilitators as well as the people who participated in our group provided a safe space to explore, learn, question and laugh." - Executive Director

"This course equips you with invaluable information and experience to become the leader inside you. Plus the horses are amazing." - Analyst

"Everyone can be a leader and if you want to become aware of your innate leadership skills, this is the workshop for you."

-Mental Health Professional

"Enjoyable and empowering clinic that I was not aware that I needed; well worth taking

-Barn Manager

"Well worth attending" - Reverend

## Why Horses?

HORSES HAVE BEEN HELPING PEOPLE FOR CENTURIES!

### Masters of Cooperation

Looking closer at the social structure of the herd animal, we see it is

**WAY more than just a hierarchy of dominance and submission.**

Fully empowered herds are the  
ULTIMATE EXAMPLE OF  
COOPERATION AND COLLABORATION!

- Herds :  
stay together based on relationship and peer attachment with or without fences.
- value relationship over territory.
- mourn the loss of their friends,
- help each other learn to be brave,
- support individual and group needs simultaneously
- band together to raise young and teach them what is acceptable in 'this' herd.
- have leaders and share leadership.
- stop fighting when aggressor backs off
- shield the weak
- lead through experience, curiosity and the ability to calm and focus others during crisis
- conserve energy for true emergencies
- cooperation is emphasized

**THIS IS JUST SOME OF WHAT HORSES CAN TEACH US!**

## Professional Development Workshops

An efficient empowering and fun way to master the elusive 90% of all communication that distinguishes truly great leaders, innovators and communicators!

### LEARN BY DOING.

*Experiential learning has been proven by experts to be retained and the living power of horses guarantees an unforgettable learning experience.*

Working with Emotional Intelligence:

- ◇ reveals and improves barriers to communication.
- ◇ provides an appreciation for differences and diversity;
- ◇ improves personal awareness
- ◇ focus on non verbal communication skills;
- ◇ provides a motivational learning environment because you are engaged!
- ◇ teaches empathy and willingness to accept responsibility.

This workshop is based on  
"Power of the Herd" by Linda Kohanov
