

Therapeutic Riding

Equine Assisted Therapy and Handicapped Riding of New Jersey (EATHRoNJ) was founded in the fall of 2008 to assist people at risk or in need of special services—in the pursuit of living full, rich lives with the help of horses. We support professional and certified organizations who provide equine assisted therapies and are committed to education the public about what is possible in growing and learning by way of the horse.

Through the heartfelt support of our volunteers and supporters, EATHRoNJ has been able to raise enough funds to scholarship 2/3rds of the tuition for 33 students to participate in therapeutic riding and therapeutic horsemanship for three semesters.

Family Therapy

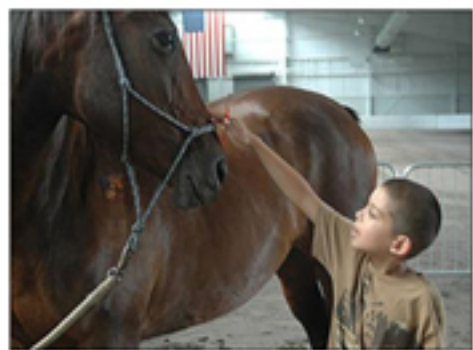

Supporting services for: Men, women and children with **any** mental, physical or emotional challenges.

### Why Horses?

Because prey animals (horses) read the intention of predators (humans) for survival. It is this prey-predator barrier that makes the use of horses in a therapeutic setting so powerful. Horses are big, powerful, incredibly sensitive and non-judgmental. They offer instant honest feedback to a willing participant. Non-discriminately. And, Amazingly, they are willing to carry us!

Equine Assisted Growth and Learning

### Activities with horses increase:

- Self-confidence—self-control
- Communication
- Problem-solving skills
- Trust, honesty and right choices
- Leadership skills
- Humility and Compassion
